- Consistent year over year sales growth
- Cash flow \$214,000 – open 9 months per year
- Purchase Price: \$580,000, including current inventory.
- Real Estate Available

This venerable company has been selling and installing high-quality interior and landscape pottery for over 20 years and in the past 10 years has expanded to the design, installation, and servicing of custom water features. Operating from a centralized, high-traffic location, this business has developed a reputable brand for high quality and excellence of service.

The unusually high margins are attributable to the development of direct, reliable product sourcing. Solid relationships with key manufacturers allow this company to eliminate the middleman and underprice any competition, thus establishing a distinct barrier-to-entry.

This business is turn-key, includes \$280,000 in inventory, and retains two experienced employees, both who are interested in staying with a new buyer. With a strong, loyal customer base and the largest selection of pots in the Treasure Valley, this company is poised for continued growth. The real estate is also available.
